South Coast Sumo Photography and Video Policy

Purpose

South Coast Sumo uses images to explain the sport, celebrate members and promote activities. We will respect participants' privacy, wishes and safety. Image permissions contact: chay.hext1984@gmail.com.

Permission and use

We will explain where images may be used, including the website and Instagram, and obtain and record the permissions appropriate to each use. For children, we will seek parent or guardian permission, take account of the child's wishes and check the recorded permission before publication.

Safe practice

Do not photograph or film in changing areas. Do not share an image that is humiliating, intrusive or unsafe. Do not identify a child by full name alongside their image or disclose a child's location or routine without a specific, considered reason and permission. Visitors and spectators must follow the organiser's instructions; photography may be restricted at a session.

Requests and withdrawal

Contact chay.hext1984@gmail.com to ask us to stop using an image. We will review the request promptly, remove images from channels we control where appropriate, and explain any limits on recalling material already shared by others. Request and consent are recorded and responded to within 7 days.
